

## AN EASY WAY TO STOP UNAUTHORISED ACCESS UP YOUR LADDERS

### DESIGNED TO MEET THE LATEST HSE GUIDELINES

- ✦ The ideal deterrent to the unauthorised use of site ladders
- ✦ Quickly locks in position on the ladder using padlock supplied in accordance with HSE advice
- ✦ Covers at least 6 rungs preventing the foot being placed on at least 5 rungs
- ✦ Does not tilt or pull away from the ladder - rungs not exposed at the front or the rear
- ✦ Made from 2.5mm aluminium sheet
- ✦ The ladder guard weighs 5kg and measures 1860mm long which covers 7 rungs at 300mm centres
- ✦ Available in 3 widths: 250mm, 270mm or 315mm

To order, quote SKUs:  
**M7LG01:** 250mm width  
**M7LG03:** 270mm width  
**M7LG04:** 315mm width

**!** No more than 50mm of exposed rung should be visible when the guard is tight to one side of the ladder.

**3 WIDTHS TO CHOOSE FROM**

All measurements are nominal.
