THE LFI WEBSITE. IT'S ALL BRAND NEW.

A CULTURE OF CONTINUOUS IMPROVEMENT. AND IT STARTS RIGHT HERE.

- + Fresh, modern, forward-thinking design
- + Fully responsive sizing, that's lightweight on data usage
- + Easy to navigate and find what you need
- + Resources and downloads for product assets
- + Brand Tool Kit giving access to LFI assets for approved distributors

As a market-leading UK manufacturer of ladders, steps, and access equipment, we turned our attention to creating a website that reflects everything we do at LFI.

Introducing a fresh, modern, forward-thinking design.

Looking for an LFI product? You can easily browse by product type, durability rating, or product code. Plus, for the first time, our accessories range is now showcased online. Our new resource centre allows you to view and download Product Data Sheets, the Product Catalogue, and other resources.

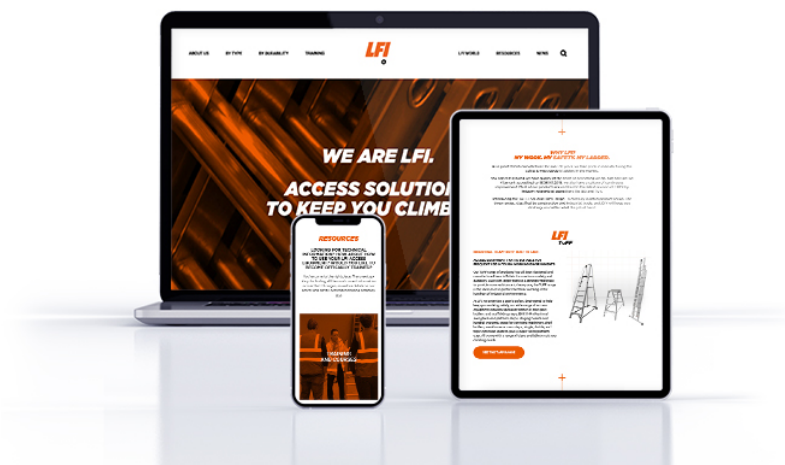

NAVIGATION. MADE EASY.

We've made it even easier to find the products you need. If you're not sure which product that is, we've thought about that too. Search by product type, range, or search by our product codes.

RESPONSIVE. LIGHTWEIGHT.

Whatever device you use, we've got you covered. Our new website offers a truly responsive design, scaling to all devices big and small, and, it does it all without eating up your data.
