LADDER HANDY™

A VERSATILE HOOK FOR PRO OR HOME USE

ALLOWS USERS TO KEEP THREE POINTS OF CONTACT TO THE LADDER

- + Unique V Grip system - no movement or twisting. Remains rigid while attached to the ladder
- + Tested to 12Kg for safe working loads
- + Rust resistant and virtually indestructible
- + Also available as a Step Handy™

LFI are a family-owned company based in Gloucestershire and have been making access products for over 75 years.

The LFI Ladder Handy™ is the British made solution suitable for home, DIY and trade applications.

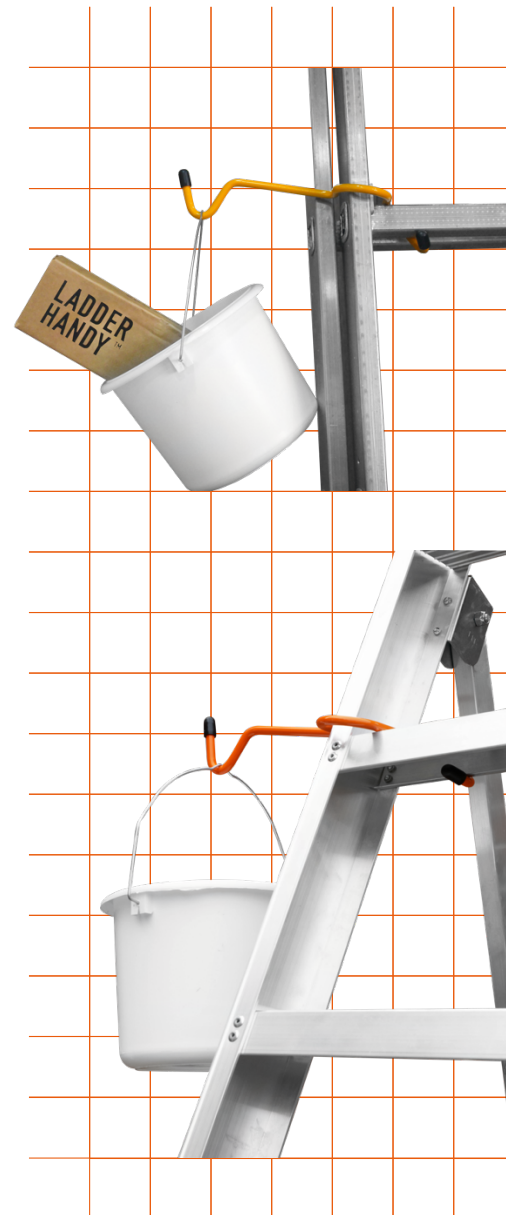

Always putting its user's safety first, LFI's Ladder Handy™ allows users to keep three points of contact to the ladder at all times when working at height. The Ladder Handy™ has become the safest way to hold buckets, paint pots, and tools on a ladder when working at height, whilst keeping the user safer and reducing the risk of incidents or accidents.

Also available is the Step Handy™. Fitting step ladders with 60mm to 80mm tread depths, and with a 3.5Kg working load, it's perfect for those jobs when only a step ladder is required.
